GAFSP Coordination Unit

Objet: Support for the proposal to GAFSP OP Niger

On behalf of CBM Christoffel-Blindenmission Christian Blind Mission e.V. (CBM) I am pleased to confirm that CBM supports the Project Proposal "Strengthening farmers' organizations to develop sustainable livelihoods in Niger" under the GAFSP Funding Stream "Producer Organization Window 2021 - Special Call for Proposals" in Niger as co-financing entity.

We have worked closely with Mooriben Federation and the supervision entity FAO, in the proposal design through a series of consultations that involved farmer's organizations, government agencies, private sector and civil society. We are willing and ready to collaborate in the project in following components:

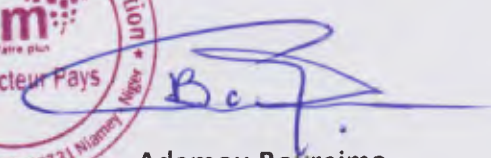

- Component 1: Organizational strengthening of the Unions and OPB members of the FUGPN Mooriben Federation in Dosso and Tillabéri Regions
- Component 2: Farmers' organizations (Unions and OPBs) develop resilient and adapted value chains to improve food and nutritional security in the intervention communes
- Component 3: Coordination, monitoring and capitalization of the project

through co-financing related activities in accordance with the financing plan of the project with an amount of apx. 75 000 Euros per year, through designated funding.

We hope on a favourable outcome and stand ready to provide further support during the detailed project design and implementation.

Yours sincerely,

Adamou Boureima
Country Director
