-----

Bangui, the

**28 DEC 2016**

Minister of agriculture and rural development

To

The Global Agriculture and Food Security  
Program (GAFSP) coordination unit.

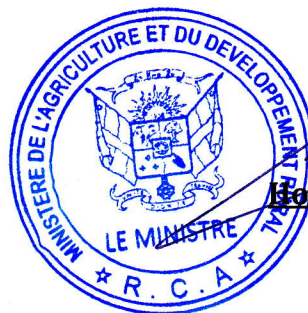

**Object:** Support mission to the strengthening and alignment of the “National Program of Agricultural Investment, Food Security and Nutrition” (NPAIFSN) of Central African Republic’s (CAR) report examination.

Madame/Sir,

In order to enable CAR to put NPAIFSN into place, a support mission formed of both national and international experts was created. The temporary report’s presentation to the national party enabled to collect a certain number of observations which have been taken into account in the final report.

Therefore, this technical report is a document that has been approved by the government, and provides a satisfying clarification on the alignment of the PNIASAN and the RCPCA. It will enable us to identify the primary actions for the agricultural revival with the RCPCA’s framework, while emphasizing on primary actors: Agricultural producers, the promotion of the private agricultural sector, the reinforcement of capacities of services to the agriculture and the governance of the agricultural sector.

Kind regards.

  
**Honoré FEÏZOURE**
