Steering Committee
Global Agriculture and Food Security Programme (GAFSP)
Washington, DC

Dear Steering Committee Members,

On behalf of the Cambodia Agriculture Cooperative Corporation (CACC), as lead, and the World Food Programme (WFP), as supervising entity, I am pleased to submit for your kind attention a proposal responding to the 2021 GAFSP Producer Organisation Call for Proposal.

The project "Building back better: organic agriculture for smallholder farmers in Northern Cambodia" aims to contribute to a sustainable, inclusive, and resilient recovery from COVID-19 of vulnerable smallholder farmers in Northern Cambodia.

This proposal is the result of extensive consultation with stakeholders and among the project partners, each of whom brings unique expertise and experience to support improved livelihoods and nutrition of smallholder farmers.

WFP is honoured to serve as Supervising Entity in this submission and will leverage its ongoing activities in Cambodia to enhance nutrition and food systems, its technical expertise and its partnerships to strengthen the project outcomes.

Should this proposal be successful, CACC and WFP would jointly elaborate the project design in consultation with concerned stakeholders and in a participatory manner.

We are pleased to jointly present this proposal to you and appreciate your consideration.

Sincerely,

Claire Conan 
Representative and Country Director
United Nations World Food Programme
